

CAREER ACADEMY – BREAK-OUT ROOM

Jobs Practice

A2/B1

The whole break-out room is designed to give students extra practice of names of the jobs, different attributes and qualities. All the challenges are designed to test ss' knowledge of job names but also the context. The ss get different exercises to understand instructions and practice job vocabulary skills. The ss solve each exercise and collect different skill badges. When they have finished, they're asked to pick the badge and the quality which best describes them. After completing a short text which describes their skills they get a certificate of completion and complete the game.

The instructions for each challenge appear after clicking the scientist and the activity opens when ss click the specified area in the challenge room.

The story and the scenario

“You’ve been accepted into the Career Academy, a top-secret international training program for students who want to become the next generation of real-world heroes — not superheroes, but teachers, doctors, designers, builders, engineers, and more. Over the past few weeks, you’ve studied many jobs. Now it’s time for your Final Test.

Your mission is to enter the Career Simulation Lab — a series of virtual rooms where your knowledge of jobs will be tested. Tools are in the wrong places. People are saying the wrong things. Job skills are mixed up. To pass your final exam, you must:

- Solve puzzles, riddles, and clues in each room
- Prove you understand the skills, tools, and roles of different workers
- Earn a Badge for each completed challenge! Good luck!!!

CAREER ACADEMY – BREAK-OUT ROOM

Health Room Challenge

Your first test room is the HEALTH ROOM. Read the clues very carefully and write what these jobs are. All of them are connected with health.

Job Riddles

Task: Read the riddle. Write the correct job.

1. I help people who are sick. I work in a hospital. → Doctor
2. I take care of you when you stay in hospital. I wear a uniform. → Nurse
3. I help animals feel better. I work in a clinic. → Vet
4. I clean your teeth and check your smile. → Dentist
5. I give you medicine at the pharmacy. → Pharmacist
6. I work in an ambulance and help in emergencies. → Paramedic
7. I look at your eyes and give you glasses. → Optician
8. I help people walk again after injuries. → Physiotherapist
9. I help people talk about their feelings and problems to make their minds feel better.
Psychologist
10. I wear a mask and gloves and use special tools to fix people in the operating room. →
Surgeon

Creative Room Challenge

Your second test room is the CREATIVE ROOM. Read the job names and the descriptions carefully. Find a correct match. All of them are connected with creative jobs.

1. A chef... → cooks in a restaurant.
2. A painter... → uses colours and brushes.
3. A writer... → writes stories and books.
4. A musician... → plays music and instruments.
5. A photographer... → takes pictures with a camera.
6. A dancer... → moves to music on stage.
7. A designer... → creates clothes or objects.
8. An actor... → plays roles in films or plays.
9. A baker... → bakes bread and cakes.
10. A sculptor... → makes art with stone or clay

CAREER ACADEMY – BREAK-OUT ROOM

Service Room

Helping Hands – Who Says This?

Your third test room is the SERVICE ROOM. Who says these words? Can you guess? Read the sentences and write the jobs. All of them provide us with some service.

Match the quote to the correct job. (write the name)

1. “Would you like a drink with that?” → Waiter
2. “Your room is now clean!” → Cleaner
3. “I’ll fix the engine and check the brakes.” → Mechanic
4. “Here is your haircut.” → Hairdresser
5. “What book would you like?” → Librarian
6. “Let’s learn some new words today.” → English/language teacher
7. “Here’s your key to the room.” → Receptionist
8. “Please fasten your seat belt before we take off.” → Pilot
9. “Hold still while I take your photo.” → Photographer
10. “How can I help you today?” → Shop assistant

CAREER ACADEMY - BREAK-OUT ROOM

Technical Room

Your fourth test room is the TECHNICAL ROOM. Read the TEXT carefully and put the verbs in the correct forms. All the jobs are connected with technical skills.

A Busy Day in Job City

answer, ask x 3, drive x 2, explain, rescue, ring, start, take, teach, use, wear, write

It's 7:00 a.m. in Job City. Everyone is getting ready for the day. Let's meet some of the workers! Ms. Carter is a teacher at the local school. She usually (1) _____ her day at 7:30 and gets to school by 8. She (2) _____ math and English to 10-year-old students. Every day, she (3) _____ questions, (4) _____ things on the board, and (5) _____ homework for her class. Her students often (6) _____ lots of questions and she always tries to help. Across town, Luca is a firefighter. He (7) _____ a heavy uniform and stays ready for emergencies. When the phone (8) _____, Luca and his team jump into the fire truck and (9) _____ to the scene. Sometimes they (10) _____ people or animals from danger. He also (11) _____ special tools to break doors and control fires. It's a brave and busy job! Amira is a taxi driver. She (12) _____ people around the city all day. She (13) _____ them where they want to go, then (14) _____ them safely there. When people (15) _____ questions about directions or places to eat, Amira always has good answers!

CAREER ACADEMY - BREAK-OUT ROOM

Logic Room

Your fifth and last test room is the LOGIC ROOM. Click the gaps and look at the objects. Guess who does each job. Write the correct name. (Ss click on the gap and the images connected with particular jobs appear. On the basis of this the ss must figure out what this job is.)

The jobs used:

mechanic, firefighter, electrician, chef/cook, artist/painter, accountant, journalist, farmer, fashion designer, engineer, carpenter, architect, librarian, scientist

When ss have completed all the challenges, they need to pick the badge and the quality which describes them the best. Each badge leads to a different text. Ss complete the text and receive their certificate.

Helpful

Are you someone who enjoys supporting others, solving problems, and making people feel better? Helpful people often do well in jobs that focus on care and service. **Nurses** work in hospitals or clinics, helping patients feel comfortable and healthy. **Social workers** listen to people's problems and offer support during difficult times. And **teachers** help students grow and learn, making a big difference in their lives every day.

CAREER ACADEMY - BREAK-OUT ROOM

Creative

If you're someone who loves thinking outside the box, designing new things, or expressing ideas in original ways, a creative career might be perfect for you. **Graphic designers** use colors, shapes, and images to create eye-catching posters, websites, and logos. **Animators** bring characters and stories to life through movement in films or games. And if you're good at coming up with clever ideas to promote products or events, a job in **marketing** might be just right for you.

Organized

If you're the kind of person who likes to make plans, stay on schedule, and keep everything under control, you might do well in a job that requires strong organizational skills. **Project managers** lead teams and make sure everything is done on time. **Event planners** take care of every detail when organizing weddings, conferences, or concerts. Or, if you're good with numbers and details, you might become an **accountant**, helping businesses manage their finances.

Technical

Do you enjoy building things, fixing problems, or working with machines and technology? If so, your skills could be perfect for a technical job. **Software developers** create programs and apps that help people in their daily lives. **Electricians** install and repair important systems that power homes and businesses. Or you might become a **mechanical engineer**, designing and improving tools, engines, or machines used in everything from cars to factories.

CAREER ACADEMY – BREAK-OUT ROOM

Brainy

If you're curious, thoughtful, and enjoy learning new things, your strengths could be a great match for brainy careers. **Research scientists** study the world around us and try to find answers to important questions through experiments and data. **Data analysts** work with numbers and information to help companies make smart decisions. Or, if you're interested in health and chemistry, becoming a **pharmacist** could be the right path — helping people by giving them the correct medicines and advice.

Have fun!!!
